

[Ocean Decade Network: What's new?](#)

Some exciting updates from the newly re-launched Ocean Decade Network (formerly known as the Global Stakeholder Forum)! If you haven't yet signed up, please join our growing global community of ocean change-makers via forum.oceandecade.org.

The screenshot shows the top navigation bar of the Ocean Decade Network website. It includes the logo for the United Nations Decade of Ocean Science for Sustainable Development (2021-2030), a search bar for active people, and navigation links for Welcome, Live feed, Take Action!, News, Events, Decade Actions, Partners, Directory, Directory (Institutions), Groups, Resources, Forums, Opportunities, and an Admin Panel. Below the navigation bar is a large banner image of three people in yellow rain gear on a boat, with the text "Welcome aboard the Ocean Decade Network!". Below the banner is a white box containing the text: "A global community of ocean-minded professionals committed to co-designing and co-delivering a revolution." and "The Ocean Decade Network is the main space to actively engage in the UN Decade on Ocean Science for Sustainable Development. This platform has been designed with a host of features to allow members to connect as a worldwide community, as smaller targeted groups, and across valuable one-to-one interactions." Below this is another banner image of the ocean with the text "Connect with people around the world."

15 April 2023

We have been busy over the past 16 months as we completed Phase 1 of the platform, which focused on growth, strategy, and development. In just one year, we grew to 7,000 users, representing over 150 countries. As part of this, there are over 300 Decade Actions featured and over 70 groups - including Communities of Practice, National Decade Committees, and Open

Groups - launched or in development.

We recently upgraded our functionalities so that there is more autonomy for network users to engage and edit pages, especially related to the Groups feature. As part of this, we have spent the past several weeks conducting individual meetings with each Group Lead to ensure that you can most effectively manage your group.

We are now entering Phase 2, which will focus on user engagement and accessibility. As part of this phase, we will be launching a Mobile App (stay tuned in late 2023!) as well as improving the network's capacity to host and translate multiple languages.

We are also working on a Ocean Decade Network Road Map which outlines our goals, history to date, and objectives for the next phase of the platform.

Please visit our “[Resources](#)” section to find user guides and tutorials, including a [Decade Action Page Tutorial](#), stepping you through how to edit and manage your page.

We are open to feedback as we adapt the network to best suit your needs, so please reach out to oceandecadenetwork@unesco.org with any questions, concerns, or suggestions!
